Students of the World are offering a limited number of scholarships to students who meet the following eligibility criteria;

### Key Criteria

- \* Be a high school student,
- \* Aged between 14-18 years old,
- \* Be flexible with travel dates,
- \* There is a prerequisite that the student is learning the language and has been for at least two years.

The student will need to undertake an interview with a Students of the World representative who will then determine which scholarship will be applied. Due to a limited amount of scholarships, it is advised students seek out their interest in a scholarship as soon as they apply.

There are three different scholarships to apply for ranging between 25 - 50 % off the total price of a program.

Please discuss the different options with a Students of the World representative during your interview.
